

Xmarter TIBCO Spotfire Overview

TIBCO Spotfire is downright beautiful! We hope this overview will be helpful to you. TIBCO rocks!

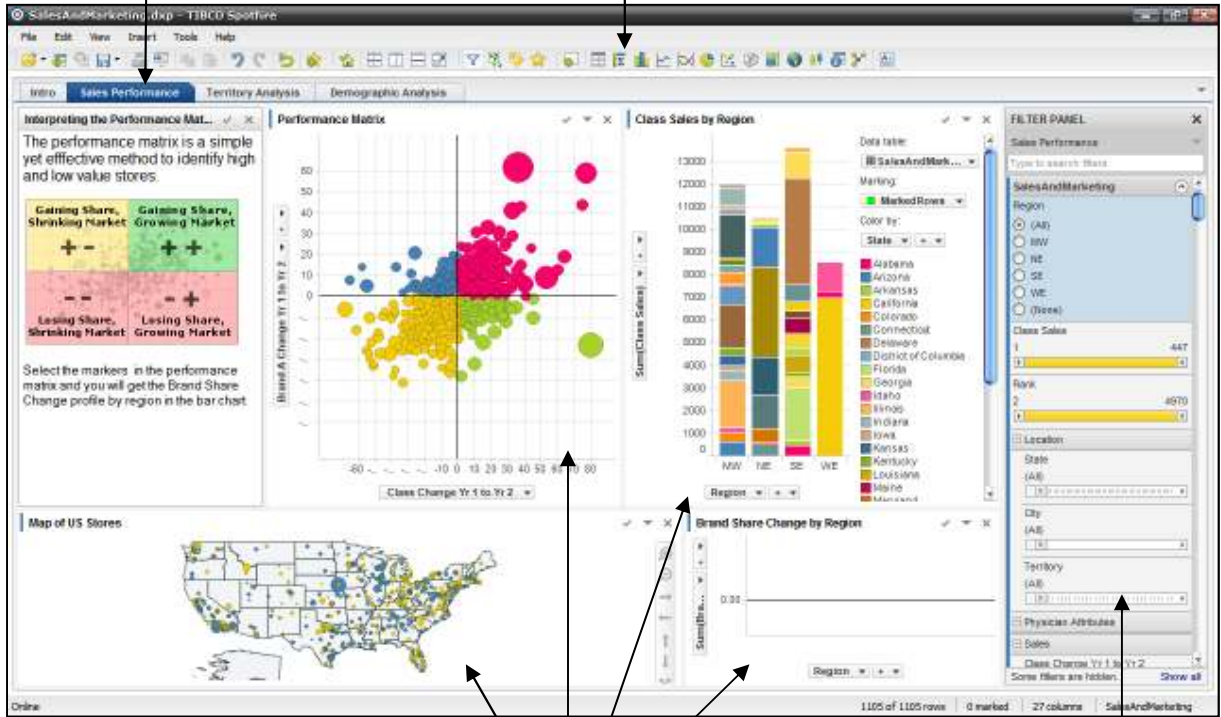

- ✓ Log into TIBCO Spotfire by entering your username and password and the URL to your Spotfire Analytics Server
- ✓ Data can be loaded into Spotfire from text files, Excel files, or database tables.

- ✓ Alternatively, you can open an existing project.

You can organize different sections into pages

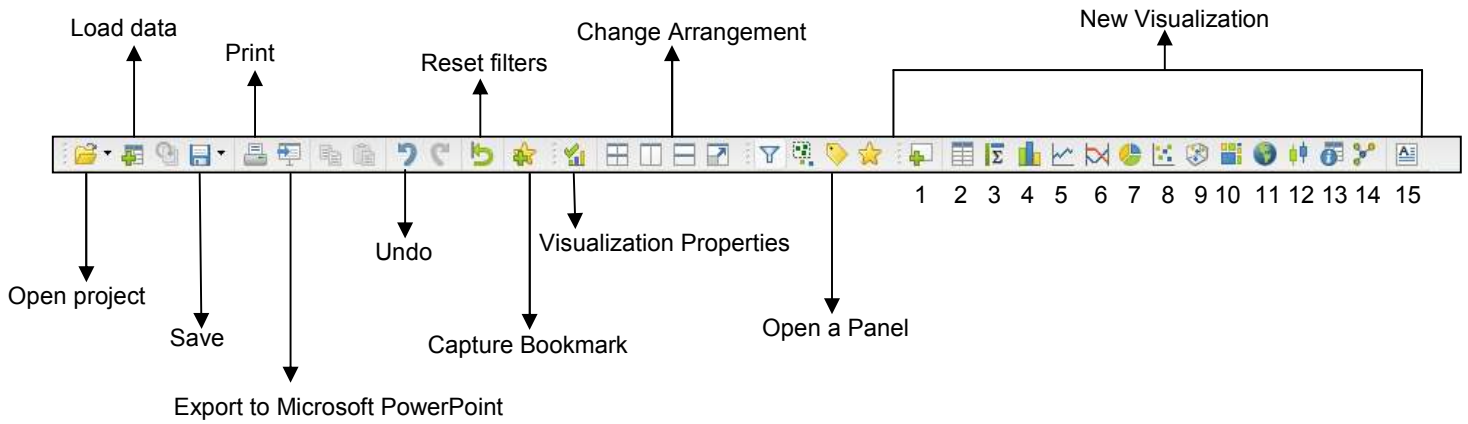

Toolbar lets you change views and create data visualizations

Visualizations such as Map Chart, Scatter Plot, Line Chart, Bar Chart

Used to change the values of your data sets

The Toolbar

The Filter Panel

Primarily used to pick a value or values of a selected data or a range of values for a selected data. The changes are automatically reflected in the visualizations.

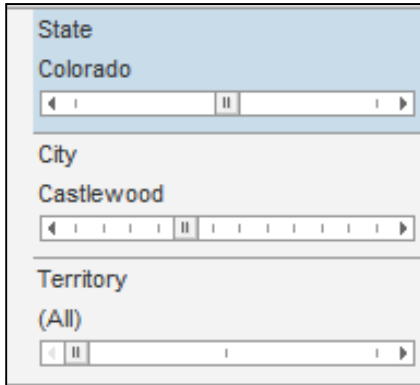

There are six types of filters:

1. Range Filter

1. New Page
2. New Table
3. New Cross Table
4. New Bar Chart
5. New Line Chart
6. New Parallel Coordinated Plot
7. New Pie Chart
8. New Scatter Plot
9. New 3D Scatter Plot
10. New Tree Map
11. New Map Chart
12. New Box Plot
13. New Summary Table
14. New Network Graph
15. New Text Area

2. Item Filter

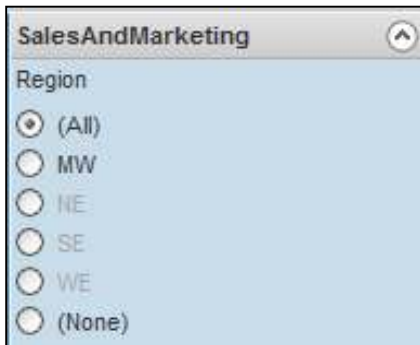

The image shows a vertical stack of three dropdown menus. The first menu is labeled 'State' and has 'Colorado' selected. The second menu is labeled 'City' and has 'Castlewood' selected. The third menu is labeled 'Territory' and has '(All)' selected. Each dropdown menu has a small arrow on the right side.

3. Checkbox Filter

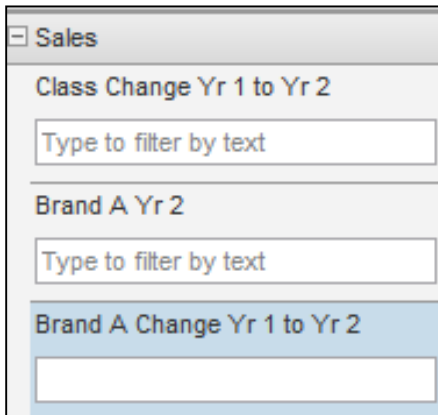

The image shows a section titled 'Market Segments (2)' with a light blue background. Below the title are four checkboxes, all of which are checked. The checkboxes are: 'Gaining Share, Growing Market', 'Gaining Share, Shrinking Market', 'Losing Share, Growing Market', and 'Losing Share, Shrinking Market'.

4. Radio Button Filter

The image shows a section titled 'SalesAndMarketing' with a light blue background. Below the title is a section labeled 'Region' with five radio buttons. The first radio button, labeled '(All)', is selected. The other radio buttons are labeled 'MW', 'NE', 'SE', 'WE', and '(None)'.

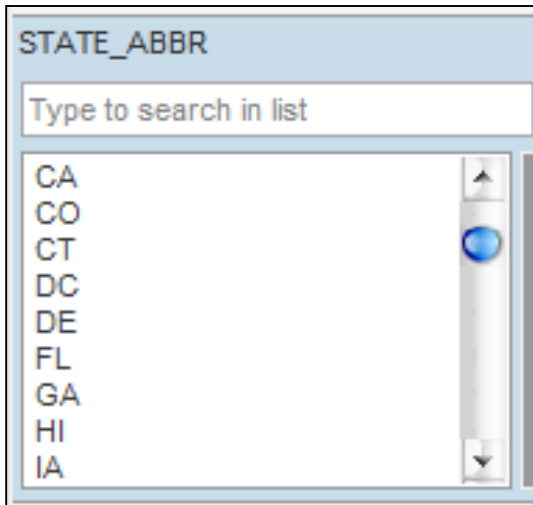

5. Text Filter

A screenshot of a software interface titled "Sales". It contains three filter sections, each with a text input field:

- Section 1: "Class Change Yr 1 to Yr 2" with a text box containing "Type to filter by text".
- Section 2: "Brand A Yr 2" with a text box containing "Type to filter by text".
- Section 3: "Brand A Change Yr 1 to Yr 2" with an empty text box.

6. List Box Filter

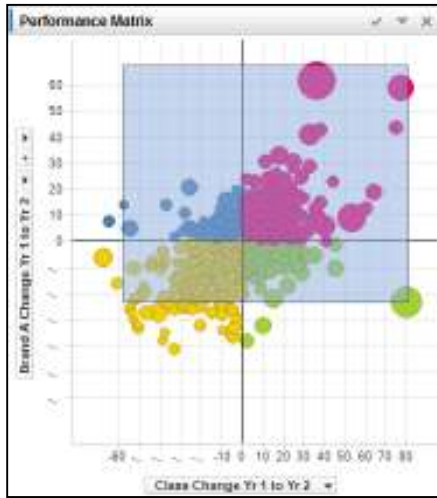

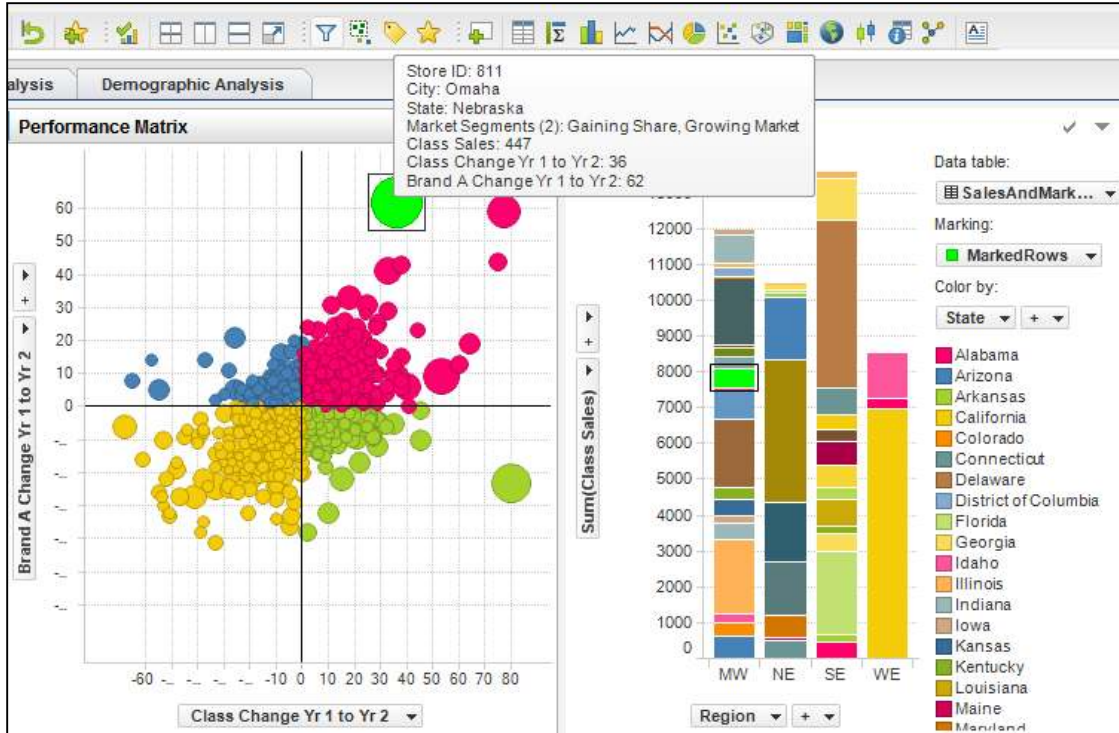

A screenshot of a software interface titled "STATE_ABBR". It features a search input field and a list box:

- Search field: "Type to search in list".
- List box: Contains the following state abbreviations: CA, CO, CT, DC, DE, FL, GA, HI, IA.

Details on Demand

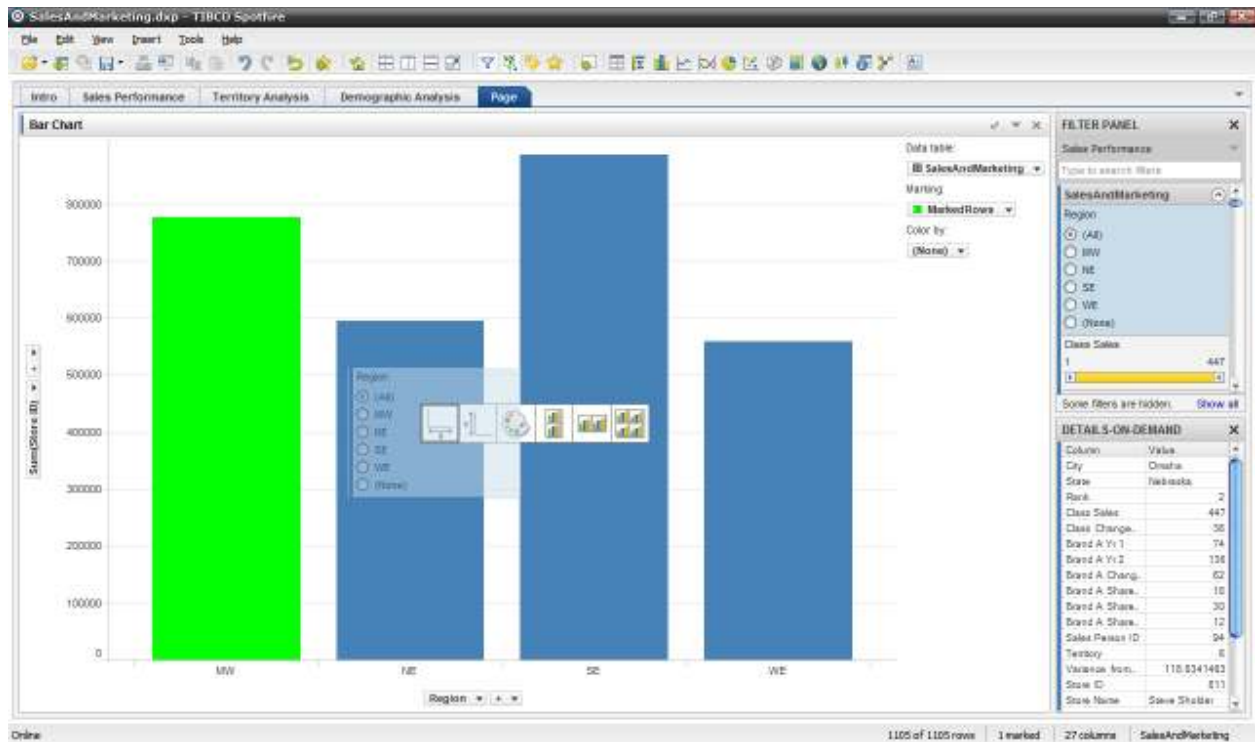

Lets you see the highlighted data from the visualizations

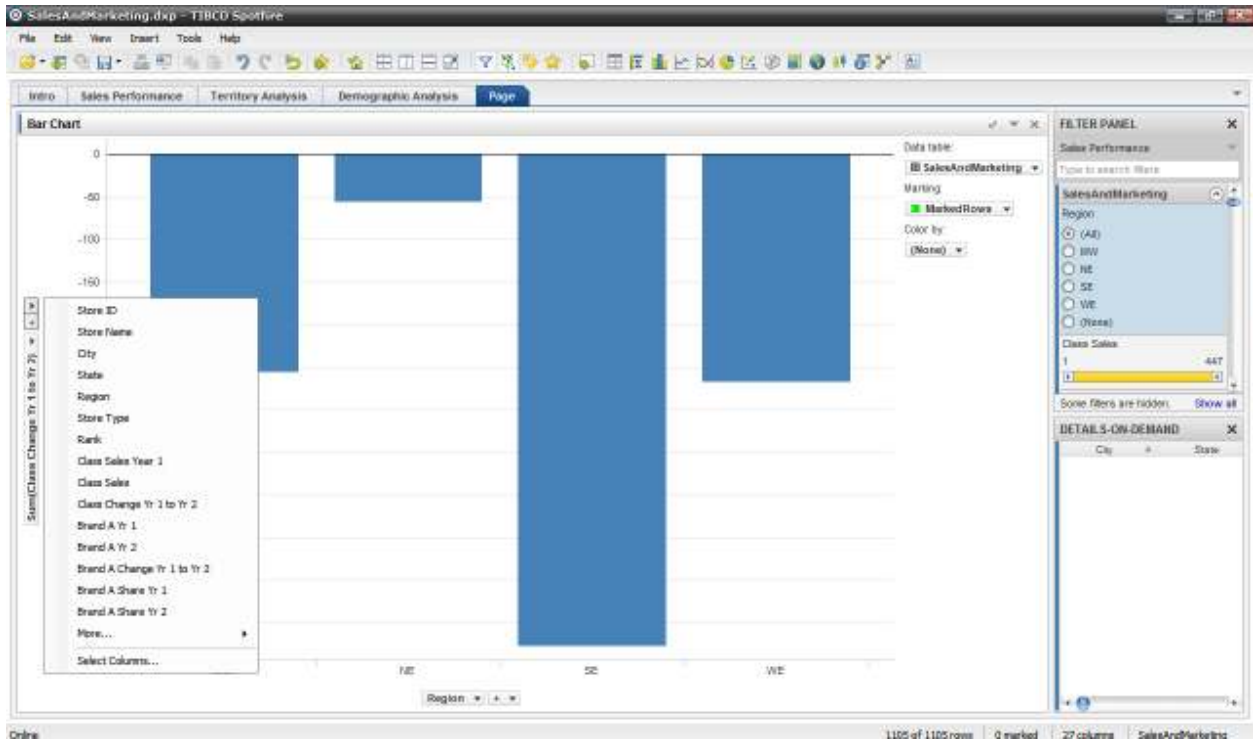

You can see the details of a selected data when you hover your mouse on a point in your visualization. The selected data is highlighted in green.
